

Supply Line Adapter

3/8" Compression
9/16"-24 - Female x Male

flow, stop and go®

Features and Benefits

- Solid brass construction.
- Can be easily installed under the sink between the supply line and the faucet.
- Ideal for faucets where the aerator cannot be replaced but a lower flow rate is desired.
- With built-in OD8 check valve for added back flow prevention.

Two inlet connections (one hot and one cold) will require 2 adapters. The max output of the faucet will be the sum of your hot and cold flow rate combined.

Options Available

Part #	Color
FFC-0950-30	1.5 gpm - Green flow regulator
FFC-0960-30	1.8 gpm - Light blue flow regulator

Exclusively for use on faucets supplied with either cold only or pre-mixed water (1 supply line).

Packaging:

PCA* 3/8" Supply Line Adapter 1 pc (bag), 6 pcs (clamshell)

FFC-0870-30	0.25 gpm - Black flow regulator
FFC-0890-30	0.5 gpm - Lime green flow regulator
FFC-0900-30	0.6 gpm - Beige flow regulator
FFC-0920-30	0.75 gpm - Red flow regulator
FFC-0930-30	0.9 gpm - Olive flow regulator
FFC-0940-30	1.0 gpm - Blue flow regulator

For use on faucets supplied with 1 or 2 supply lines.

Packaging:

PCA* 3/8" Supply Line Adapter 1 pc (bag), 6 pcs (clamshell), 50 pcs (bag)

Certification

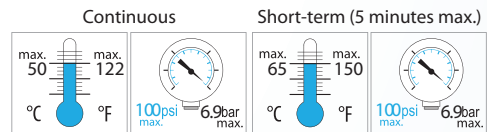

ANSI/NSF * -61-372
